Kindly click here to download the **JAR file** and attach the DSC. Post this execute the downloaded JAR file and then click to submit in order to digitally sign the entire application.

Back

Submit

2. Click on “Save file” button to save the Jar File.

3. Prior to executing the Jar file please ensure the following;

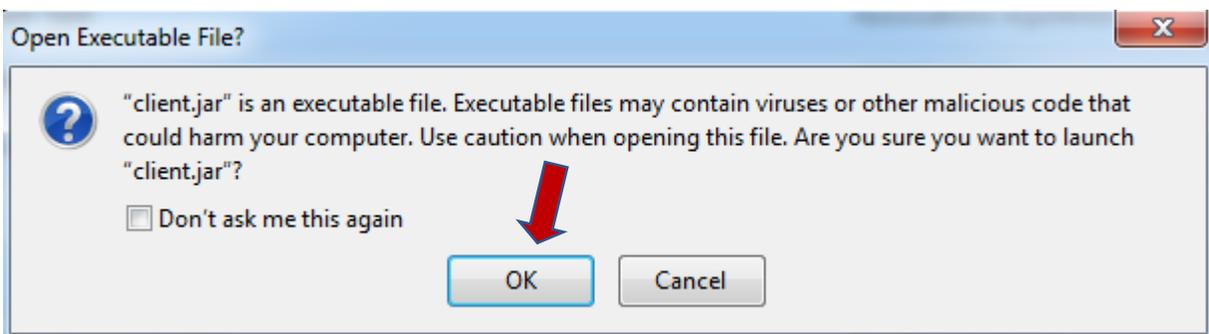

3.1 Minimum System Requirements

- Operating System: Windows 8.1 or newer
- Java Runtime Environment(JRE): 1.8 or newer
- Web browser: Google Chrome
- JavaScript should be enabled

3.2 What are the prerequisites for accepting DSC?

- Installation of Java:
 - Open www.java.com
 - Click on the Free Java Download Link given on the page. Another page appears
 - Click on the Agree and Start Free Download Button. A downloaded dialog box appears.
 - Click on the Save File Button in the downloaded dialog and save in your computer
 - Open the file from the location you have saved it.
 - Click on the Run Button to install the application
 - Click on the Install Button in Java Setup
 - You can view a success message in the Java Setup after successful Installation
 - Click Close to exit the setup
- Enable Java Plugin in Internet Browser
- Installation of required Dongle Driver (epass)

4. Double click on the downloaded client.jar file to open it and then click “ok” button to execute the jar File.

4. After Executing the Jar file, open your chrome browser and type the url: localhost:8000/sysinfo. If the webpage renders with information this would mean that the jar file has been successfully executed and if the browser shows HTTP Error 404 then the jar file has not been executed on your system.
